

Brintons

Project: Charlotte Convention Center

Details: 33,000 SY Axminster

Brintons collaborated with Atlanta Flooring Design and TVS Design on the renovation at the Charlotte Convention Center.

The property added 9,000 SY to the existing building and revamped the rest of the Convention Center in just six weeks. The carpet was installed in phases working around events, thousands of attendees, and holidays.

David Wilson and Scott Palmer of Atlanta Flooring Design expressed their favorite part of the project was the transformation of the new space meeting the old and how the patterns made the two areas cohesive. The custom carpet draws the eye with bright reds, deep blues, and golds inspired by a crown only fitting for North Carolina's "Queen City."

Our experience with the Brintons, TVS Design and Atlanta Flooring Design Centers was excellent. Brintons delivered the product ahead of the promised schedule. The finished product has been one that we'll be proud to showcase for years to come!
