

Brintons

Project: El Niguel Country Club

Details: 1,800 SY Axminster

Brintons collaborated with MDR Architects of Irvine, California to design and manufacture 1,800 SY of custom Axminster for the El Niguel Country Club's recent refurbishment.

When carpet is the key object in a refurbishment such as this project, designers can hone in on color and scale of elements to make sure they fit with existing architecture. Our Axminster is fully customizable so the design can be tweaked all the way down to the pixel to exceed the perfect 'fit for purpose.'

"Working with Brintons on El Niguel Country Club was a seamless coordination process throughout the design and installation phases. It is an experience worth repeating!"

Amisha Trivedi
Senior Interior Designer
