Brintons collaborated with IGroup Design on approximately 16,000 square yards of custom axminster carpets at the Willows Hotel & Spa at Viejas Resort.

"The Brintons design team was so integral to the conceptual process. Direct contact with the senior designer through email, phone and meetings to capture the many nuanced edits and design evolutions was both collaborative and painless. The carpet was one of the first finish items installed and it gave the client early confidence in the final vision. I am thrilled with the finished product!"
